

Amendments to the Claims

This listing of claims will replace all prior versions, and listings, of claims in the application:

What is claimed is:

1. (Currently Amended) An isolated polynucleotide comprising:
 - (a) a first nucleic acid encoding a light-generating gene product[[:]]
operably linked to a cis-acting angiopoietin-2 (Ang-2) regulatory element,
wherein said cis-acting Ang-2 regulatory element comprises the amino
acid sequence set forth in SEQ ID NO: 1; and
 - (b) a second nucleic acid encoding a selectable marker, wherein said
selectable marker is operably linked to a promoter, and wherein expression
of said selectable marker allows for selection of said polynucleotide in a
eukaryotic host[; and]
 - (c) ~~a cis-acting Ang-2 regulatory element.~~
2. (Original) The polynucleotide of claim 1, wherein said light-generating gene product is a bioluminescent gene product.
3. (Original) The polynucleotide of claim 2, wherein said bioluminescent gene product is luciferase.
4. (Original) The polynucleotide of claim 1, wherein said selectable marker is neomycin phosphotransferase.
5. (Canceled)
6. (Canceled)
7. (Canceled)

8. (Original) A vector comprising the polynucleotide of claim 1.
9. (Original) The vector of claim 8, wherein said vector is viral vector.
10. (Previously presented) The vector of claim 9, wherein said viral vector is a retroviral vector.
- 11.-49. (Canceled).
